

Golden Bear Amateur Radio Net Preamble

QST,QST,QST this is _____ net control station for the Golden Bear Amateur Radio Net. This traffic net meets daily at 1900 hours Pacific Time on approximately 3975 Kilohertz.

The net objective is to maintain a system capable of providing limited communication service if normal services are disrupted or unavailable.

Only traffic legal for transmission by amateur radio will be accepted. Third party traffic must identify station and place of origin.

The Net and its members assume no responsibility for the results of their effort to provide communication assistance as a free public service.

Roll call may be interrupted only for emergency traffic.

Members are urged to be on time for roll call and to remain on frequency to assist with traffic. This will aid net and area controls to conclude roll call rapidly and to expedite traffic.

This is a directed Net: Please do not transmit unless invited by net or area control.

End of QST. This net is now open for emergency traffic only. This is _____, Net Control.
. Are there any relays on emergency traffic?

Are there any stations with formal traffic to list?

This is (*your call*) Net Control for the Golden Bear Amateur Radio Net; let's open the net for traffic listings, mobiles, and then the roll call.

Closing Statement

This is the Golden Bear Amateur Radio Net, a group of amateur radio operators gathered to handle traffic. The Net, its officers and members assume no responsibility for any communications on the net frequency, approximately 3975 Kilohertz, prior to 1900 hours or after the net is closed this date _____ 20__, at _____ hours. Thank you.
