

QST QST QST

Effective Monday October 30, 2017 the Golden Bear Net will return to normal roll call rotation. On even days of the month, roll call begins in the Northern Area, then to the Central Area, and finally in the Southern Area. On odd days of the month, the order will be reversed – South, Central, then the North.

We will remain in this roll call rotation until the band changes next spring.
